

This is a call out to the 40% of our users based outside the UK

We want to know about your country.

Whether you're from Malaysia, Australia, Kenya, France or Mozambique; start an article about your country so the rest of the world can learn how the construction industry operates where you are.

Just log in and click the big orange button 'create an article'. You could write about the most common type of procurement, who the biggest clients are, the value of the construction industry, how it's regulated, or even give an overview of current trends.

You don't have to do lots of writing, just start an article with what you know. You could then ask other people to add more. We would love to hear from you.
