## 02 · INITIAL RECORD

What's there?

ATOM: a proposal for educational facilities integrated with the infrastructure of a new town. Text, network diagram, building axonometric, plans, sections and

What attracts attention?

The extension of educational planning beyond conventional institutions into industry, commerce, transport and everyday life. A distributed network of local facilities is paired with a standardised, adaptable building system. The photographs suggest that learning is to be accommodated within the ordinary, largely anonymous environment of the modern town.

Recollection · 1972

*To be recorded, if recalled.*

## 03 · INVESTIGATION

Questions to investigate

1. How are the network of facilities and the individual building types related? What determines their location, capacity and use?
2. How does the proposal connect education with the wider infrastructure of the town?

Further examination

Compare the article with the *Atom* pages 234-235.
