02 · INITIAL RECORD

What's there?

Siting diagrams compare housing types under different conditions. The main section presents a 13-storey crate-housing system.

What attracts attention?

The juxtaposition of site-selection criteria with a highly developed housing system. The crate-housing drawings show the vertical service and access spine, the linking of units vertically and horizontally, and the possibility of replacing units as living standards change.

Recollection · 1967

*To be recorded, if recalled.***03 · INVESTIGATION**

Questions to investigate

- * How do the siting criteria relate to the crate-housing system?
- * How do the structural, service and access arrangements enable units to be linked, replaced or reconfigured?

Further examination

Examine the relationship between the numbered drawings and the written specification.

Relationships

PTb <-> DTb

Relationship to be investigated, not assumed.
